

The Jim Show

Technical Specs

The Show: Self contained, high-energy, clean comedy performance with juggling, balancing, physical comedy, music, and audience participation. The act is captivating and entertaining without profanity or dangerous objects.

The Audience: Appropriate for all ages, appealing to all ages. The Jim Show has been well-received at street festivals, elementary schools, middle schools, high schools, prep schools, colleges, and corporate events.

Length of Show: Usually 45-50 minutes. (60 minutes, max.) The show can also be shortened to any length or broken up into two, totally different, 30 minute sets.

Space Required: Outdoors: Dry, level pavement or cement measuring 30' by 20'.

Indoors: Ceiling height of 12 feet or more is required.

Floor space or stage measuring at least 25' by 20'.

(Generally speaking, the larger the space, the better the show, however, almost any space is workable.)

Sound System: For most shows, Jim uses his own battery-powered, portable microphone and music system. If you have a PA system already set up, Jim can plug his own system into it.

Travel Radius: Based in Boston, MA, Jim can travel anywhere by car or plane. Jim has performed in the U.S. and Canada from coast to coast. He has performed abroad in Europe, Asia and New Zealand.

Available for: Jim is available for stage performances, street festivals, promotional events, concerts, customized corporate shows, M.C. work, industrial videos, commercials, feature films, and anywhere else comedy entertainment is needed.

Hire Jim. He's really good.
